

Pairing Your Bluetooth Keyboard

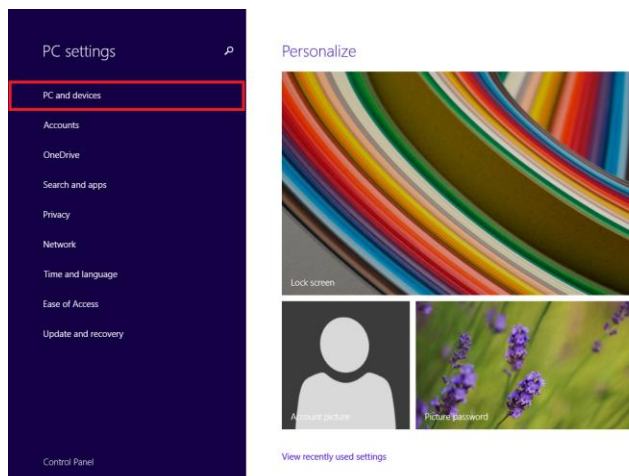

1. From the Start Screen, select the PC SETTINGS icon ().

If you're in Desktop mode, you can access the Start Screen by selecting the Windows Icon located in the bottom-left corner of the screen.

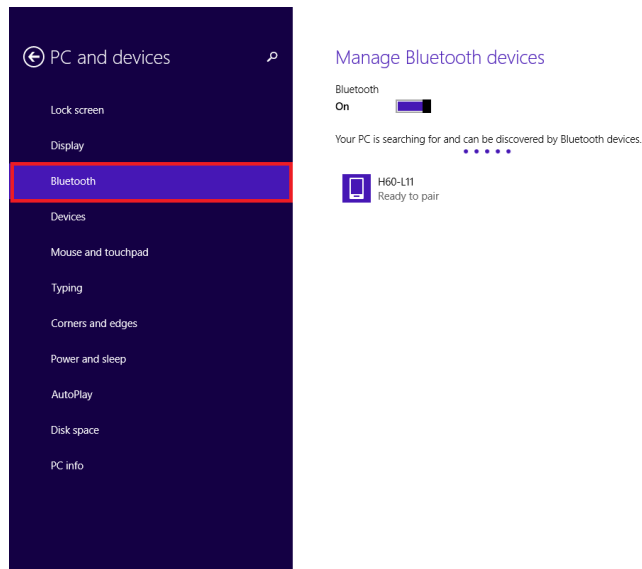

2. In the settings Menu, select **PC AND DEVICES**. You will be taken to the PC and Devices menu.

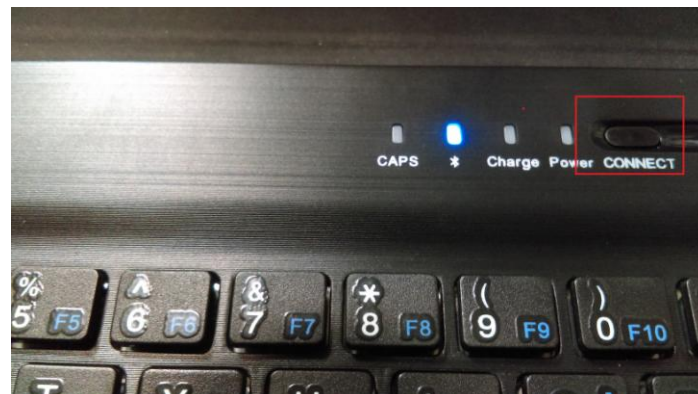

3. Before Proceeding, make sure your Bluetooth Keyboard is powered on.

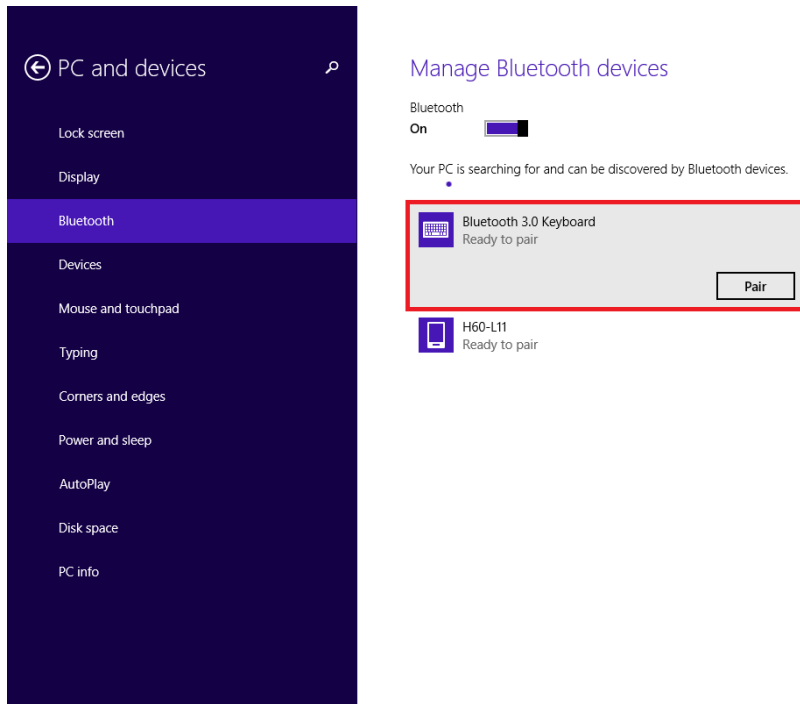

4. Back to the Devices Menu, select **BLUETOOTH**. A list will appear, showing all the available devices.

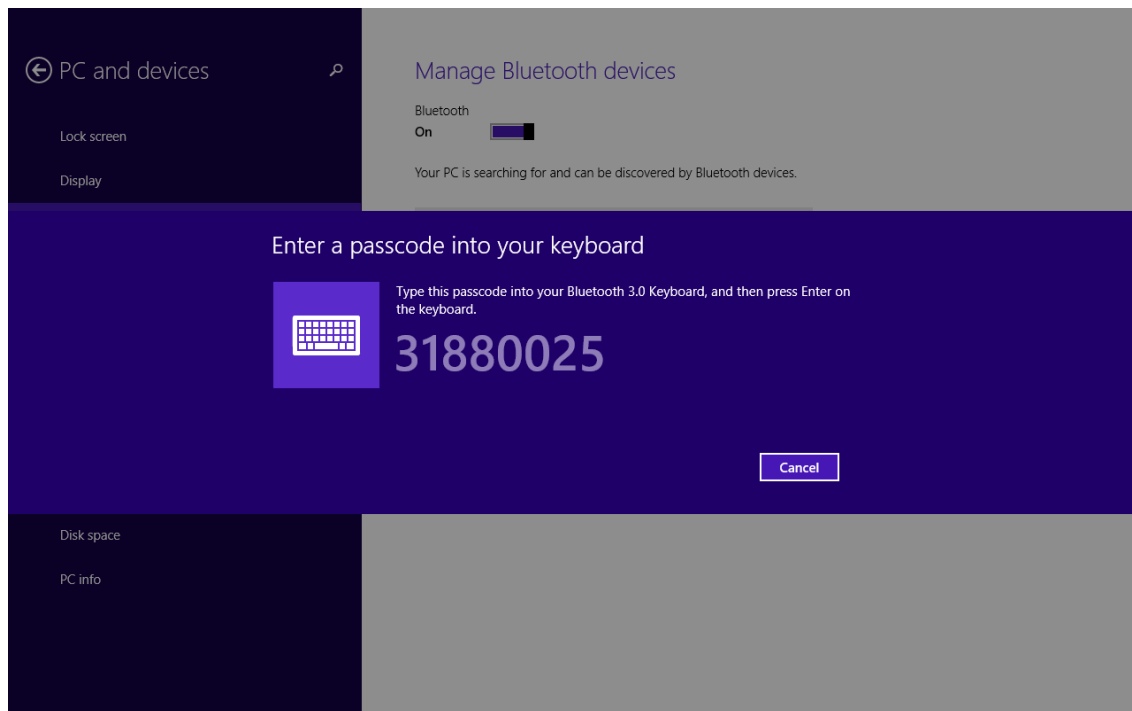

5. On your Keyboard, press the **CONNECT** button, located near the power switch. The Bluetooth light will start flashing.

6. On your screen, an item will pop up saying **BLUETOOTH 3.0 KEYBOARD**. Select the item, followed by **PAIR**.

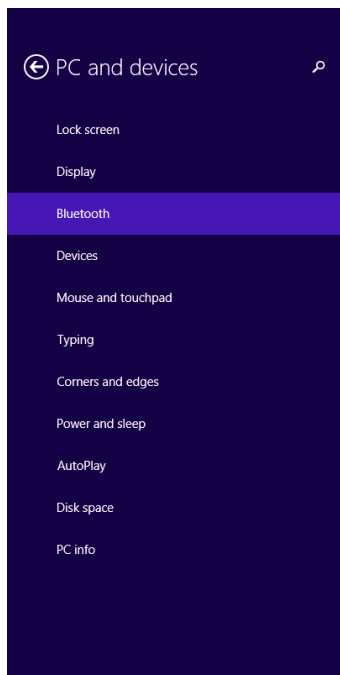

7. While pairing, a number will appear on the screen.

8. Once the number appears on your screen, quickly go to your Bluetooth Keyboard, type the number that appears on the screen, and press the Enter key.

9. Process may take several moments. Once the screen shows CONNECTED, you have successfully paired the keyboard!
